PROFESSIONAL SUMMARY

Junior Backend Developer with hands-on experience building RESTful APIs and scalable server-side applications using Node.js, Express.js, MongoDB, Redis, and JWT authentication. Experienced in designing secure authentication systems, implementing caching strategies, and developing production-ready backend services. Passionate about building reliable, scalable systems and continuously improving software engineering practices. Open to junior backend roles, internships, and remote opportunities.

TECHNICAL SKILLS

Languages & Runtime: JavaScript (ES6+), Node.js

Frameworks: Express.js

Databases: MongoDB (Mongoose ODM), PostgreSQL (Basics), Redis

Auth & Security: JWT Authentication, Bcrypt, API Security, Middleware

APIs & Architecture: REST APIs, CRUD Operations, MVC Architecture, Cache-Aside Pattern

Tooling: Git, GitHub, Postman, Render, Railway, dotenv, npm

Methodologies: Agile / Scrum

BACKEND PROJECTS

URL Shortener API – Built a REST API that accepts a long URL and returns a unique short code with click tracking stored in MongoDB. Implemented Redis caching and TTL-based cache patterns for high-traffic redirects.

User Authentication API – Engineered registration, login, protected routes, access tokens, and refresh token flows using JWT and bcrypt.

Notes REST API – Delivered authenticated CRUD operations for notes with resource ownership enforcement and request validation.

Product Catalog API – Developed a read-heavy API with category filtering, search functionality, and Redis cache-aside optimization.

E-Commerce Backend API – Built authentication, product management, order processing, and payment integration features.

Real-Time Chat Backend – Implemented JWT-authenticated real-time messaging using WebSockets.

PROFESSIONAL EXPERIENCE

Inventory Control & Customer Service Representative – Prince Ebeano & Co., Lagos (Oct 2023 – Apr 2025)

Improved inventory tracking workflows, analyzed operational data, optimized business operations, and increased customer satisfaction through structured issue resolution.

Storekeeper & Site Supervisor (Contract) – JRB Construction Company, Abuja (Sep 2021 – Feb 2022)

Maintained inventory systems, reduced material waste, and coordinated logistics and workforce scheduling.

EDUCATION & CERTIFICATIONS

B.Sc (Ed) Business Education – University of Nigeria, Nsukka
Scrum Certification (2023)
Backend Development – TS Academy

ADDITIONAL

Portfolio: kennethoparadev.netlify.app
Available for junior backend roles, internships, and API collaboration projects.
Passionate about scalable systems, cloud deployment, backend optimization, and learning through building.
